Our Facilities

SAUNA

Our Finnish sauna is renowned for its detoxifying effect and contributes to your overall wellbeing. Do make sure that after leaving the sauna you allow time to let your body cool off and give yourself time to relax to maximize the effect of this invigorating experience.

INDOOR JACUZZI

Our Jacuzzi offers an ideal way to soothe your stress away. Let the buoyancy of the water hold your weight while targeted jets massage your muscles and relieve tension. Within minutes, you will be transported to a calm and tranquil place where your mind can be still and your body relaxed.

STEAM ROOM

Our Steam Room can improve your health in several ways, improving circulation and promoting skin health and can also decrease your body's production of cortisol, which is the hormone that regulates the level of stress that you feel. When your cortisol levels drop, you feel more in control and relaxed. Spending a few minutes in a relaxed state not only improves your health but also helps heal your mind and improves your focus.

Additionally, through your daily environmental exposure, all sorts of toxins become trapped under your skin, Steam rooms help reduce this problem by using heat to open your pores. The warm condensation rinses away these toxins and dead skin that can lead to breakouts. As a result, you will have a clearer and more evenly toned skin.

SNOW ROOM

Our Snow Rooms has been carefully designed with an Antarctic aesthetic. The room is completely sealed and reaches temperatures below zero where snow forms, creating a blissfully cold sauna experience that helps build your immune system and increase your bodily awareness. We are sure that our Snow Room will provide you a truly unique experience, leaving you refreshed and invigorated.
